### Jackson County COVID-19 Daily Press Release

**[Medford, Oregon]** — Jackson County Public Health reports 41 new COVID-19 cases as of 12:01 am on January 19, 2021. This update brings the total COVID-19 cases to 6,973.

#### COVID-19 Hospitalizations

The number of hospitalized patients with COVID-19 in Region 5 (Jackson and Josephine Counties) is 33, decreasing by 2 from the previous day. There are 13 patients in the intensive care unit (ICU), no change from the previous day.

The total number of patients in hospital beds may fluctuate between report times. The numbers do not reflect admissions per day nor the length of hospital stay. Staffing limitations are not captured in this data and may further limit bed capacity.

[More information can be found on the OHA COVID-19 Data Dashboard.](#)

For additional COVID-19 data, visit the COVID-19 Data Dashboard at [Situation in Jackson County, Oregon](#) webpage. The [Oregon Health Authority's COVID-19 Data Dashboard](#) website does publish Jackson County COVID-19 data.

#### COVID-19 Vaccine Update

The public health and healthcare systems in Jackson County understand how vital getting vaccinated is to protect the community's health, our loved ones, and help our community in its recovery. We are all committed to vaccinating as many people as we can and as fast as we can. We are collaborating on the distribution of the COVID-19 vaccine to increase the number of vaccinations in the most effective and safe way.

Jackson County, Asante, the National Guard, Providence, and other medical partners have collaborated to put on a drive-through vaccination event for people in Phase 1A that need their first dose of the COVID-19.

Asante and Providence have supplied the Pfizer vaccine for this vaccination event.

**Hours of Operation:**

- o Thursday, January 21: 9:00 am – 4:30 pm
- o Friday, January 22: 9:00 am – 4:30 pm
- o Saturday, January 23: 9:00 am – 4:30 pm

Please go to <https://www.asante.org/covid-19/vaccination-events/> to pre-register for this event. You will need to print and fill out the vaccine administration record and the insurance form on this site. The insurance is only for billing purposes; if you do not have insurance, this will not be a barrier to receive the vaccine. You will also access additional documents here, such as the HIPAA Notice of Privacy Practices, CDC Vaccine Information handout, Vsafe handout from CDC, and information on how to access the booster vaccine for those in Phase 1A that are vaccinated at the Expo.

**Who is not eligible for the vaccine event at the Expo**

- People in Phase 1B, includes educators and people over 65, or the general public
- People currently in quarantine and people with an active COVID-19 infection.
- People who have a known history of anaphylaxis to one of the ingredients in the COVID-19 vaccine.
- If you have a significant history of anaphylaxis to any medication injections or have severe environmental allergies and carry an EpiPen.
- If you have received another vaccine within the last 14 days (for example flu, shingles, Tdap)

You may not be eligible to be vaccinated at this time; please check the Jackson County Health and Human Services [COVID-19 Vaccine website](#) to see when you may be eligible.

If you are eligible to receive the vaccine, but it is safest to be seen in a clinic setting, schedule an appointment with another vaccination site such as Asante, Jackson County Public Health, or other providers listed on the Jackson County Health and Human Services [COVID-19 Vaccine website](#).

A prior diagnosis of COVID-19 does not exclude you from getting the vaccine. However, you should be recovered from illness.

Masks are required to be worn for this event. If you do not have one, then one will be provided. Refusing to wear a mask will make you ineligible to be vaccinated at this event.

**Vaccination process for the vaccination event at the Expo**

1. Go to <https://www.asante.org/covid-19/vaccination-events/> and pre-register for the event. You will need to select the date and time frame you will be attending.
2. Print the Vaccine Administration form (VAR) and the insurance form, complete the information, and bring it to the vaccination clinic.
3. When you arrive at the Expo to receive the vaccine, you will be asked to verify that you are in Phase 1A verbally.
4. Print the "booster" flyer with information about how to receive the second dose of vaccine from Asante or Providence. You will need to receive the second "booster" dose 21 to 28 days after the first dose.
5. At the time of vaccination, you will receive a card that states the date you were vaccinated.
6. After vaccination, you will spend 15-30 minutes in your vehicle at the clinic to ensure you do not have a reaction to the vaccine. Emergency medical services will be on-site at the clinic to attend to anyone needing assistance.

**Do's and don'ts**

- Do bring a snack and water as you may be waiting in your vehicle for an extended time.
- Do wear a mask while getting vaccinated.
- Don't have pets in your vehicle at this clinic.
