Jackson County Community Justice Juvenile Division

Most Common or Serious Referrals Twelve Year Data Trend Reports

SUMMARY

Information on Jackson County juvenile offenders was collected, entered and maintained in the Juvenile Justice Information System (JJIS). JJIS is a state-wide electronic case management system used by all counties in the state of Oregon and maintained by the Oregon Youth Authority.

Items to consider when reviewing data:

Small changes in raw numbers between years may create large percentages. For example, a change from 6 to 2 creates a change of 67%. Review both the raw numbers and percentages to determine the significant of these changes. Data in this report represents crimes that have a corresponding referral to the Community Justice Juvenile Division Services which is the juvenile justice provider in the county.

If a juvenile crime occurred that was not reported, or law enforcement did not create a referral regarding the crime, it is not included in this data.

SUMMARY

The most common or serious offense referrals have continued to see a downward trend over the last 12 months (18%) and the last 12 years (61%). Over the last 12 months, five offenses showed an increases over the previous year: Assaults 3% (2 youth), Robbery 9% (4 youth), sex offenses 7% (4 youth), criminal mischief 19% (26 youth) and firesetting 21% (3 youth) .

The most common or serious person-to-person offense referrals showed a 14% reduction from the previous year and 49% over 12 years. The largest decline over the last year has been harassments (29%) and Disorderly conduct (26%)

The most common or serious property offense referrals have shown a 19% reduction from the previous year and 65% over 12 years. The largest decline over the last year has been unauthorized use of a motor vehilce (62%) and Thefts (16%).

Midedeamor and Felong drug referrals have steadily declined over the last 12 years, with minor in possession on marijuana having been on the increase for the past 3 years. However, marijuana possession decreased 39% from the previous year. Alcohol referrals show a 43% decrease over the prevoius year and a 81% decrease over the last 12 years.
