Recidivism

SUMMARY

Information on Jackson County juvenile offenders was collected, entered and maintained in the Juvenile Justice Information System (JJIS). JJIS is a state-wide electronic case management system used by all counties in the state of Oregon and maintained by the Oregon Youth Authority.

Recidivism is defined as by referral: Any new criminal referral (arrest) within a 12 month period. No action needs to be taken by department to count against recidivism.

Items to consider when reviewing data:

Small changes in raw numbers between years may create large percentages. For example, a change from 6 to 2 creates a change of 67%. Review both the raw numbers and percentages to determine the significant of these changes.

SUMMARY

Overall recidivism for Jackson County has averaged 25.32% (statewide average 28.27%) over the last 4 years. Jackson County did see a 3% increase over the last year. Female youth showed a 10.7% increase in recivism over the previous year.
