

CONTRACTOR'S CERTIFICATION OF HIGH-EFFICIENCY INTERIOR LIGHTING SYSTEMS

In accordance with ORSC Section N1107.2 and / or Table N1101.1(2) the owner, owner's authorized agent, or the general contractor must notify the Building Official in writing that one of the code requirements specified below have been met. Jackson County Building Division has developed this written certification process in order to facilitate code compliance as effectively and effortlessly as possible.

ORSC N1107.2 High-Efficiency Interior Lighting Systems. A minimum of fifty (50) percent of the permanently installed lighting fixtures shall be installed with compact or linear fluorescent, or a lighting source that has a minimum efficacy of 40 lumens per input watt. Screw-in compact fluorescent lamps comply with this requirement.

- This project was equipped with a minimum 50% "High-Efficiency Lighting Systems"
- Additional Measure item [#4 #5 #7] was utilized in accordance with Table N1101.1(2); therefore, 75% "High-Efficiency Lighting Systems" were mandated and appropriately installed. (Please circle one)
