Type of travel (city, rural, business, medical, mission, church project, family visit, education):

\_\_\_\_\_

Departure Date: \_\_\_\_\_ Length of trip: \_\_\_\_\_

Do you have Insurance coverage or employer reimbursement for vaccines? YES NO

Date of last Tetanus: \_\_\_\_\_

Prior vaccine received and dates received: \_\_\_\_\_

\_\_\_\_\_

**Measles:** Vaccine is recommended for all travelers. Individuals born after 1957 should have 2 doses of MMR for travel outside of the US.

**Hepatitis A:** Vaccine is recommended for all travelers.

**Meningitis:** Vaccine is recommended for people traveling to the meningococcal belt in sub-Saharan Africa.

**Polio:** Single lifetime booster is recommended for travelers and required for some countries.

**Tetanus & Diphtheria:** Tdap /Td is recommended if vaccine was given more than 10 years ago.

**Typhoid:** Oral or injectable typhoid vaccine is recommended for most travelers. Travelers at greatest risk are those who are: visiting relatives and friends, "adventurous eaters" and/or traveling to villages, small cities, or rural areas.

**Yellow Fever:** Vaccine is required for some Sub-Sahara African and South American countries.

Payment is expected at the time of the office visit/travel consultation. Many insurance companies do not cover the cost of travel immunizations. **I am responsible for paying for the office visit, administration fees and immunization(s) that cannot be billed or are not covered by my health insurance.**
