Update on COVID-19 Cases in Jackson County

As of MMRW Week 17 (April 19, 2020 – April 25, 2020), there has been a total of 3,888 people tested for COVID-19 in Jackson County, 49 of those tests resulted in a positive lab result. The last confirmed COVID-19 case was reported on April 24, 2020. See Figure 1. for information on the total COVID-19 tests and the testing positivity rate in Jackson County per MMRW week.

As of April 29, 38 (76%) of the 49 COVID-19 cases have recovered, and 11 (22%) cases continue to be monitored by Jackson County Public Health staff.

At this time, there are no fatalities from COVID-19 reported in Jackson County. For demographic data on the total cases, please access the Jackson County HHS COVID-19 webpage. This data is located under the Jackson County Daily Situational Update tab.

Updated State Guidance and Resources

As clinical and private laboratory options for COVID-19 testing continues to expand, the Oregon Health Authority has updated the testing guidance for clinicians regarding COVID-19 testing. Oregon Health Authority recommends that medical providers test for COVID-19 in people with symptoms consistent with COVID-19, with an added priority for testing people in higher-risk groups. The testing guidelines provide testing guidance for people who are asymptomatic.
