**General Notes:**

AC = Asphaltic Concrete Pavement. The asphaltic concrete mixture may be either hot-mix or warm-mix and shall conform to Jackson County standards.

**NOTES:**

- ① Bike lane width should be measured from the edge of the concrete pan per AASHTO Guide for the Development of Bicycle Facilities.
- ② Design for maximum width unless approved by the Department Director.
- ③ Landscape strips are permitted only with agreement that the adjacent property owner will maintain and with additional right-of-way dedication.
- ④ Lower spacing may be allowed when supported by a traffic study and approved by the Department Director, or when no other public road access is possible.
- ⑤ Applies to spacing between street intersections and driveways. No minimum standard between driveways.
- ⑥ ROW width depends on sidewalk width, inclusion of planting strip, and inclusion of on-street parking where permitted.
- ⑦ Oregon Department of Transportation "Standard Specifications for Highway Construction" and Jackson County Supplemental Specifications and "Special Provisions" applicable to the project
