GOALS TO ACCOMPLISH

• To educate the committee on how the lack of adequate space in a correctional facility impacts the community and the offender.

• To inform the committee on current efforts within the criminal justice system and social services to reduce recidivism.

• To solicit input and ideas from the committee on how to reduce crime and recidivism in Jackson County.

• To solicit input regarding a new facility and how can it best serve Jackson County or improve our current facility to do the same.

WHAT IS ADDICTION?

- Addiction is a primary, chronic disease that impacts the brain's reward system as well as the parts of brain responsible for learning, memory, habits, impulse inhibition, decision making, cognitive awareness, mood and stress reactions or responses.

- Addiction is marked with intense craving leading to both physiological and psychological dependencies on the substances being used.

- Addiction is progressive in nature to the point of death, however it can be treated and managed like any other chronic diseases.
WHAT IS ADDICTION TREATMENT?

Addiction in the term used to describe the DSM-5 diagnosis of a Substance Use Disorders (SUD’s). SUD’s are categorized as mild, moderate or severe and diagnosed relevant to each substance of use.

Addiction treatment is based on the American Society of Addiction Medicine (ASAM) placement criteria, as well as Evidence Based Practices for SUD’s treatment created by SAMSHA and other regulatory guidelines.

Addiction treatment consists of medical interventions, group therapy, individual therapy, case management, peer support and wrap around intensive community supports.
